

Australia's #1 job site

Experienced JavaScript Web Developer

Advertiser:
Fontis Pty Ltd

5 Mar 2021

Melbourne, CBD & Inner Suburbs

Full Time

Information & Communication Technology, Developers/Programmers

Description

Want to help develop the next generation of cutting edge online retail sites? We are seeking experienced developers to assist with the implementation of web-based eCommerce systems utilising full-stack JavaScript solutions, progressive technologies, and serverless architectures. Successful candidates will be working in an experienced team, with plenty of opportunities for growth and reward for achievement.

We are looking for an experienced full-time web developer with a strong customer service focus to join our team. To succeed in this role you will be reliable, team-oriented, self-motivated, have excellent time management skills and demonstrate strong attention to detail. You will be passionate about web development, with outstanding written and verbal communication skills. Experience working in an agency or professional services role is a plus.

Benefits of working at Fontis:

- Casual dress code - geeky t-shirts encouraged
- Melbourne CBD location with easy access by public transport
- Work with progressive tools, techniques and technologies
- Team social events - dinners, LAN parties, and more
- Negotiable working hours if you want to avoid the rat race
- Weekly catered lunches for the team
- Relaxed, fun working environment

Responsibilities:

- Work on new website projects, from initial discovery and planning phases through implementation and deployment.
- Maintain and enhance existing websites while adhering to software engineering best practices.

- Communicate with clients and manage ongoing projects and maintenance requests.
- Configure and maintain large-scale websites running on cloud environments.
- Work with internal or external designers to implement provided designs.
- Lead improvements in the software development process and coordinate efforts with co-workers.

Experience with all of the following technologies is a requirement:

- JavaScript, NodeJS
- Linux
- Nginx
- MySQL
- HTML, CSS
- Version Control Software (git, bsr, etc)

Familiarity with any of the following technologies is desirable:

- TypeScript
- JavaScript libraries and frameworks such as Vue, Knockout, or React
- Docker, Kubernetes or other container environments
- Cloud services such as AWS, Google Cloud or Azure
- PHP, Magento
- PostgreSQL, MongoDB
- VS Code, PhpStorm, Eclipse or other IDE

About Fontis

Fontis is an established company that provides software development services to clients in a range of industries, with solutions primarily based on Open Source Software and specialising in large-scale eCommerce websites. We are active maintainers for and contributors to a number of open source projects, and seek to constantly implement new tools and techniques to make our work better.

Salary package is negotiable and will be commensurate with the experience and skill set of the successful candidate.

No enquiries from recruitment agencies please.

The application form will include these questions:

- Which of the following statements best describes your right to work in Australia?
- What's your expected annual base salary?
- How much notice are you required to give your current employer?
